

Ceramic Coating

DESCRIPTION:

Mighty VS7 Ceramic Coating is the purest form of protection you can apply to your vehicle. The ceramic resin acts like an additional layer of clear coat which gives increased depth of gloss and enhanced color creating an almost nonstick layer.

FEATURES:

- Chemical & wear resistant
- Gives years of protection
- Enhanced color & depth of gloss
- Reduces dirt build up
- Extremely hydrophobic

DIRECTIONS:

Wash and completely dry vehicle. Correct any paint imperfections for a flawless finish. Apply 1-2 mL of product to applicator pad. Use light pressure to spread a thin, even coat over one panel at a time. Allow product to dwell for 1-2 minutes. Once product begins to flash off, lightly wipe with a microfiber towel. Excessive wiping will degrade product performance. Allow at least 30 minutes of cure time before exposing to outside elements.

AVAILABLE SIZE(S): (12) 2 oz DL6015
